PROFILE

UX/UI and Product Designer with 6 years in design, the last 2 focused on complex interfaces for SaaS, e-commerce, healthcare and HR tech. I work AI-native, with agents in my IDE, and take an idea to a working prototype on my own.

Domains: healthcare, mental health, veterinary, HR, legal services, real estate, museums, green energy, food, e-commerce.

CORE COMPETENCIES

Product & UX: Product design, UX/UI, competitive analysis, UX audits, jobs to be done, information architecture, user flows, customer journey maps, wireframes, prototyping

UI & systems: Design systems, UI kits, Material UI theming, dashboards and data visualisation, light and dark themes, WCAG AA, responsive web, iOS and Android

Visual & brand: Art direction, brand identity, logo design, motion design, App Store and marketing assets, print, pitch decks

Delivery: Client presentations, developer handoff, HTML/CSS, Webflow, WordPress, project management

Tools: Figma, FigJam, After Effects, Photoshop, Illustrator, InDesign, HTML, CSS, Webflow, WordPress, Vercel, Jira, Notion, Obsidian, Google Analytics, Hotjar, Microsoft Clarity

AI tools: Claude Code, Antigravity, Krea, Magnific, Midjourney

EXPERIENCE

Karts Design, UX/UI & Product Designer (full-time) Jun 2025 – Present

I design client web and mobile products from discovery to developer handoff and back design decisions with research and analytics data.

- Led the redesign of an HR analytics web app; manager engagement grew 1.7× after launch, and the SUS score rose from 54 to 79 in testing.
- Led UX and art direction for the second version of a live AI companion app for mental health with a psychologist marketplace (iOS, Android), aimed at lifting 30-day retention from 3.1% to 5%.
- Conducted discovery and user research, from stakeholder interviews to moderated usability tests.
- Ran competitive analyses and heuristic UX audits, backing findings with funnel data from Google Analytics and heatmaps and session recordings from Hotjar and Microsoft Clarity.
- Started projects with an LLM before opening Figma: clarified the brief, drafted short specs and listed edge cases and risks to agree on a direction with the team.
- Turned rough concepts into interactive coded prototypes with Claude Code in the IDE.
- Created design systems from scratch and extended existing ones.
- Designed corporate and e-commerce websites, SaaS platforms and mobile apps.
- Worked solo and in teams; presented designs to clients and prepared specs for developers.

Independent, Freelance Designer May 2021 – Present

Client work alongside full-time roles, mostly through Upwork

- Consulted a company on the product design of their app.
- Designed responsive websites, owning the user flow as well as the visuals.
- Built brand systems: logos, palettes, typography, marketing materials.

Naima sp. z o.o., Web/Graphic Designer (full-time, Łódź) Nov 2020 – Feb 2025

In-house designer for websites, newsletters, print and brand

- Designed and built websites and newsletters.
- Found where visitors dropped off in Google Analytics and reworked the flows on existing websites to bring in more leads.
- Produced print and digital materials: brochures, flyers, maps, banners.
- Developed visual identities and kept them consistent across channels.

International Festival of Comics and Games, Graphic Designer (Łódź) Jun – Aug 2019

- Designed event maps, promotional visuals and visual identity elements.

SIDE PROJECTS

Dishcover, recipe app (iOS, Android) 2025

- Designed it solo, end to end: research, user flow, UI and design system.
- Delivered 100+ screens in light and dark themes in 3.5 months.
- The Behance case got 50K+ views and 2.3K appreciations.
- A developer picked it up, and the app is now in development.

wlad.design, portfolio site

- Designed it in Figma and built it with Claude Code.

EDUCATION

University of Humanities and Economics in Łódź (AHE) Oct 2017 – Oct 2020

Visual Communication & Multimedia
